2. Determining Your Risk Profile

This questionnaire will help us to understand what type of investor you are and will enable us to recommend a personal asset allocation tailored to your needs. Please complete these questions below by choosing an answer which most closely describes you.

When you drive your car, you basically want to get from A to B. Different people will choose different routes, different vehicles in which to travel and will have different time frames. You can drive faster if you want, but the faster you go, the riskier it gets. Investing is the same. Some people like to go fast and feel the thrill of short term profit making, other people are more conservative, preferring safe, reliable returns.

All questions must be answered for the profile to be complete.

Investor Profile Score Card

Total
Points

Defensive

You are a Defensive investor. Risk must be very low and you are prepared to accept lower returns to protect capital.
The negative effects of tax and inflation will not concern you, provided your initial investment is protected.

0 - 120

Moderate

You are a Moderate investor seeking better than basic returns, but risk must be low. Typically, you are an older investor seeking to protect the wealth which you have accumulated, and you prefer to consider less aggressive growth investments.

121 - 230

Balanced

You are a Balanced investor who wants a balanced portfolio to work towards medium to long term financial goals.
You require an investment strategy, which will cope with the effects of tax and inflation. Calculated risks will be acceptable to you to achieve good returns.

231 - 340

Growth

You are a Growth investor, probably earning sufficient income to invest most funds for capital growth. Prepared to accept higher volatility and moderate risks, your primary concern is to accumulate assets over the medium to long term. You require a balanced portfolio, but more aggressive investments may be included.

341 - 460

High Growth

You are a High Growth investor prepared to compromise portfolio balance to pursue potentially greater long term returns. Your investment choices are diverse, but carry with them a higher level of risk. Security of capital is secondary to the potential for shorter term or above average wealth accumulation.
